Range Problems?? Call a Club Officer

By phone or notify by email promptly. Contact Sheriff Department to advise of any vandalism you see.

Gate Lock

GATE LOCK: The lock on the gate has been replaced- again. The best way to operate the lock is to:

1. Work the code number
2. Depress the shackle, then pull open
3. Leave the number visible, go through and close the gate
4. Press the lock back shut before spoiling the number, hold closed as you spoil the number.

Beating on the lock will not make it work any better.

Target Frames

Target frames still being wrongly used to hang targets. Please fasten targets only to the plywood back boards, which are much easier to replace than the cross-members. Large pieces of cardboard from the target shed can be used to temporarily fix shot-up back boards.

The Board of Directors would really appreciate it if the members would take their trash home and dispose of it. You had room to bring it to the range, you surely have room to take it out with you; i.e. McDonald's bags, cups, ammo boxes, etc. Targets left pinned to the backers eventually blow off and litter the range. There again - someone else has to clean it up and haul it off, as we do not want to start any fires in the cans now.

Thank you for your help - and if you see litter at the range your help in cleaning it up when you see it means the ones who have to do it all the time will appreciate your efforts.

VIRTUE FLAT RANGE USE POLICIES

The Club makes every attempt to maximize the amount of time that the range is available for general use while also scheduling enough events and private range reservations to support operation of the range. Be sure to check the calendars in the newsletter or online before planning a trip to the range. When no events or reservations are scheduled, time of arrival establishes range use priority. If shooters are at the range prior to your arrival, their activities determine which ranges are available for use. In many cases, a shooting activity on one range does not affect other range use.

The 1000-yard Range prevents any other range use. This firing berm nearest to the entry gate is used for Black Powder Cartridge Rifle Silhouette Matches, Steel Silhouette Matches, 1000-yard Benchrest Shoots, an long-range High Power Rifle Matches. Before firing from this range, shooters must first check the entire range to be sure no one else is down-range at any location east of the 1000 yard berm.

The 200-yard Range prevents use of the 1000-yard range. Most range use occurs here. Target holders are placed at 25, 50, 100 and 200 yards. This range is used for Standard High Power and Sporting Rifle Matches, Pistol Classes, and by most individuals wanting to test loads or sight rifles. Use of this range still allows for safe use of the 100-yard range.

The Pistol Range prevents use of the 1000-yard range. This range is used for pistol shooting, .22 Silhouette Matches, Junior .22, YHEC, and Cowboy Action Shoots. Two benchrest and target placements out to 100 yards are available. Use of this range still allows for safe use of the 200-yard range. After range use, be sure to install the slide rails to keep cattle out of the shooting area.

The Action Pistol Bays prevent use of the 1000-yard range, and may prevent use of the Pistol or 200-yard Rifle Ranges. Restrictions:

1. No matches will be scheduled simultaneously in the Pistol Bays and any other range location.
2. During Scheduled Matches on the Rifle Range or 100-yard Pistol Range, no firing is permitted in the Pistol Bays.
3. During Scheduled Matches at the Pistol Bays, no use of the Pistol Range is permitted, no firing is permitted on the Rifle Range, and no person may access Rifle Range locations east (downrange) of the 200-yard berm.
4. No firing is permitted in the pistol bays when persons are downrange of the 200 yards rifle benches.
5. When no matches are scheduled, individuals or groups who wish to use the Pistol Bays must direct all fire in an eastward direction at the back berm of the bay they are using. Do not fire in any other direction. The 180° arc of fire is permitted only during scheduled Practical Shooting Matches.
6. When no matches are scheduled, simultaneous informal use of the Pistol Bays and Rifle Ranges is permitted under the following conditions:
 - a. Fire in the Pistol Bays is directed in an eastward direction only.
 - b. Rifle Range shooters must call for and receive a cease-fire in the Pistol Bays before engaging in any activity downrange from the 200-yard benches.
7. Do not fire rifles at plate racks in the Pistol Bays.

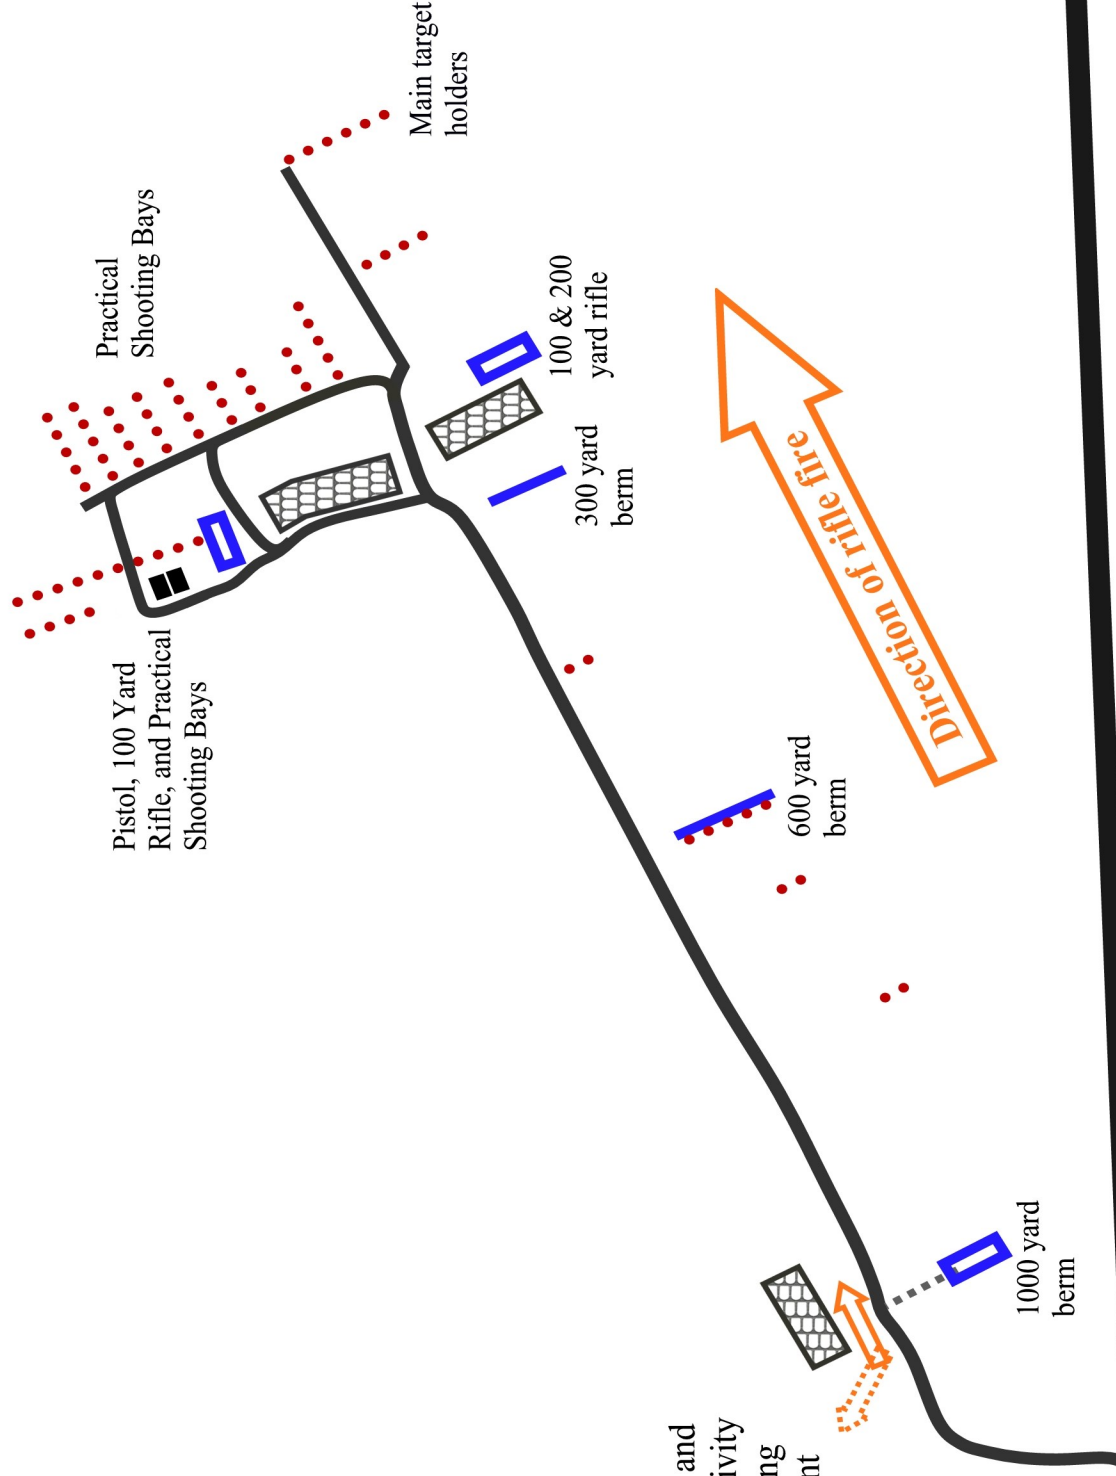

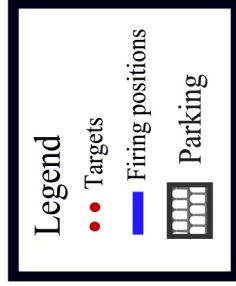

All ranges: if you see someone checking fence or pushing cows on the hillside downrange of the target areas, STOP FIRING until that person has completely cleared the hillside.

Report all acts of vandalism to the Sheriff's office as soon as discovered.

PUT SAFETY FIRST AT ALL TIMES!
